Press Release

Date: 04/26/17

The Advanced Laser Applications Conference and Expo (ALAC) May 9 -10, 2017 at the [Detroit Sheraton Novi Hotel](#)

ALAC (The Advanced Laser Applications Conference and Expo) is a dedicated laser applications conference and exposition providing a forum addressing applications, processes, engineering, development, and system integration. This international event brings together the world's engineering leaders for synergistic discussions on laser applications and industry needs. Representatives from around the globe in the technical program, exhibits, and in attendance are a hallmark of ALAC events. All technical contributions go through a rigorous editorial and peer review processes for technical excellence.

ALAC sponsors for 2017 are: Trumpf, General Motors, IPG Photonics, FCA, Shiloh Industries, Ford, Ophir Spiricon, and Inspectech. Several of these sponsors are also Mi-Light members.

More information can be found at: <https://gamcinc.com/conferences/advance-laser-applications-conference>. Be sure to mark your calendars and register today!
